Re: Huron Research Suite Grants - Go Live Schedule Information
Date: October 2, 2019

The Office of Research has built a new research administration application ecosystem: the Huron Research Suite. In December of 2018, IRB was implemented, followed by non-Financial Agreements in July, and the IACUC system in September.

On October 21st, proposal processing will be available in Huron Grants, and on November 7th, all active awards, defined as having at least one open project, will have been converted and available in Huron Grants. Training has been scheduled, and user guides will be made available. The details below represent the cutover plan.

| Area | Type | System | Date |
|-----------|---|---|--|
| Proposals | Sponsor Deadline: October 25 or prior | ARGIS (current) | October 18, 10am ET ARGIS status = "Under Review" |
| | Sponsor Deadline: On or after October 28 | HRS Grants (new) | Starting October 21 ET |
| Awards | New Award Setup Requests Award Modification Requests | ARGIS (current) | Submitted by October 18, 5pm ET |
| | New Award Setup Requests | HRS Grants (new) | Starting October 21 No new Project IDs until November 7 |
| | Award Modification Requests New Project ID | HRS Grants (new) PS Grants (updated) | Starting November 7 |

Expect to hear other communications regarding PeopleSoft Grants and PeopleSoft HCM coming soon, as part of the UCF Rising initiative.

From October 21 through November 7 if you need to spend and do not have the ability to create a new project established:

- If you have a P-card, use it for purchasing.
- If you do not have a P-card, the Office of Research Finance office will set up an account for you to charge your expenditures.
- Journal transfers will be used to reconcile expenditures once cutover is complete.

Your support and engagement throughout this transition has and continues to be extremely important and we thank you for your contributions. Please continue to watch for updates as the go-live dates get closer.
