Experience

- Proposed project team has over 100 years of collective Research Administration operations experience
- Recent Business Process/Technology Reviews include:
 - North Carolina State University: BPR and eRA requirements assessment – *2016*
 - Vanderbilt University Medical Center: Research administration support in areas ranging from F&A rates, grant transfer to Clinical Trial management, systems and billing – *on going*
 - Emory University: Multi-phased support of the research administration life-cycle – processes, change management and research IT grants accounting, PeopleSoft implementation and upgrades
 - University of Connecticut: BPR, bench marking and system alignment analysis for research administration operations at Storrs and the Health Center campuses - *2017*

Project Overview

Project Overview

- Current State Research Administration Life-cycle Assessment:
 - People
 - Process
 - Technology
- eRA Vendor Selection
- UCF Financials / PeopleSoft Environment Review and Assessment for PeopleSoft Grants Implementation and Optimization
- Change Management Initiatives

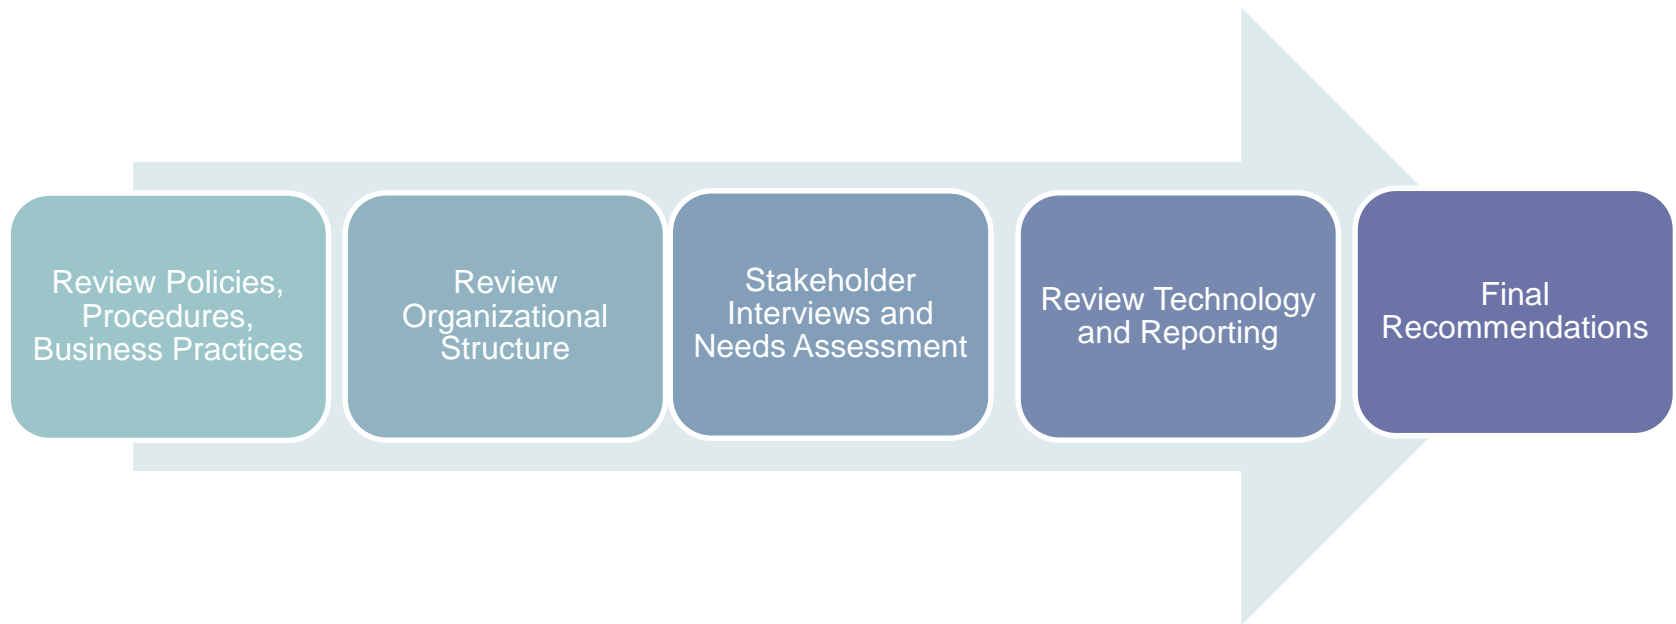

Goals

- Develop a complete understanding of UCF's current Research Administration strengths, areas for improvement, gaps, and alignment with future IT system functionality
- Solicit essential feedback from UCF stakeholders on current challenges in business processes and IT system limitations
- Pinpoint shadow systems in use, the rationale for shadow system maintenance, and future system functionality that can eliminate these systems
- Identify core functional and technical needs for future eRA and PeopleSoft Grant implementations
- Select final eRA vendor and develop eRA implementation plan
- Develop and refine UCF Financials /PeopleSoft Grants Implementation and Optimization plan

Scope Of Work

Phase I Components

- ✓ We will map, clarify and align current business operations and supporting systems with future system functionality;
- ✓ Findings during Phase I will lead to improved outcomes, refined business processes, and system optimizations for the pending eRA and PeopleSoft Grant Module implementations.

Business Process Review Approach

Part I Project Organization and Initiation

Part II Review and evaluation of UCF current pre-award, post-award and grant accounting, and eRA/ERP operations

A. Stakeholder interviews

B. Policy and Procedure Document Review

C. Current IT System Review

D. Organization Design and Structure Review

Part III Preparation and Presentation of Final Recommendations

Phase I Areas of Focus

Proposal
Development

Maintenance

Sub-recipient
contracting and
monitoring

Grant Accounting
and Financial
Compliance

Invoicing/Payment
Management
System

Final Financial
Reports and Award
Closeouts

Reporting

Export Controls

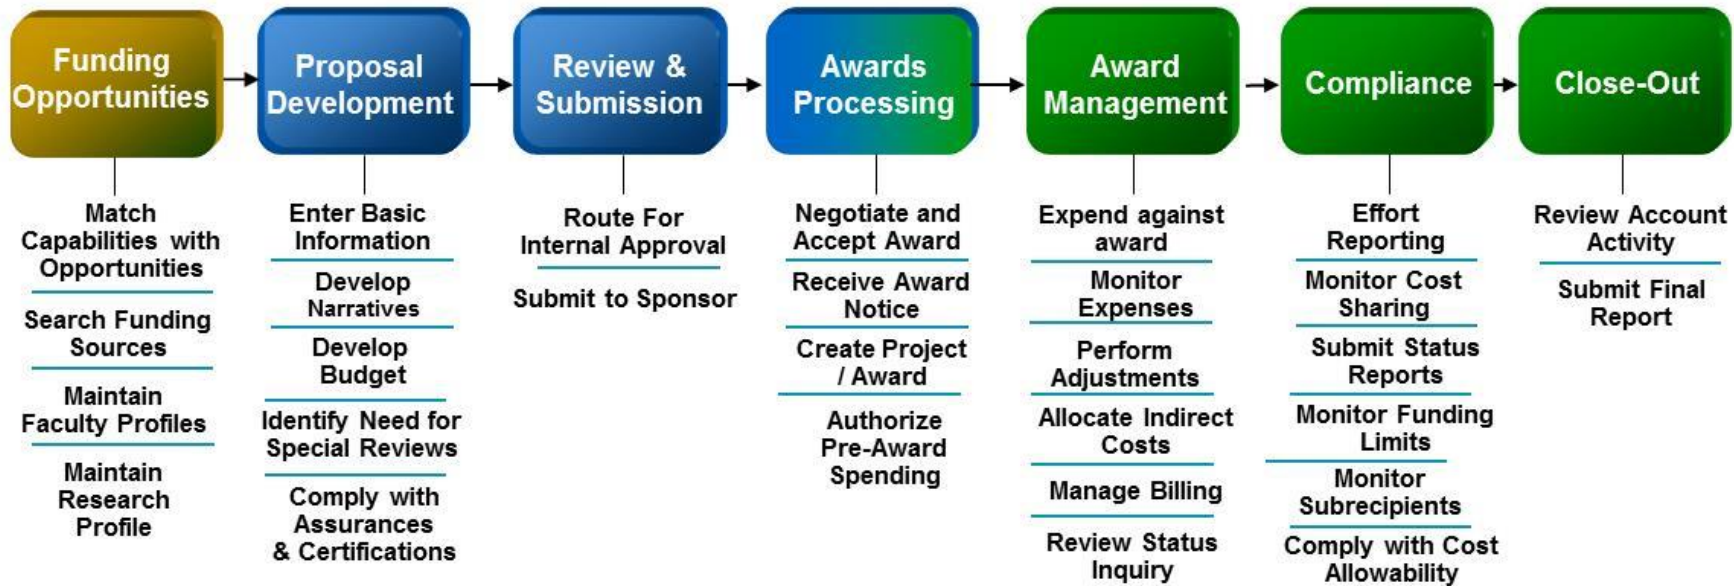

Regulatory
Compliance

Federal Grants Management Focal Points

Identify Funding

Pre-Award / Proposal

Post-Award Accounting

Calibrating Policies and Processes with your Information Systems

Project Management

Attain has worked with UCF to structure a communication plan that establishes a working bond between UCF and Attain. This includes:

- Detailed On-site schedule
- Scheduled conference calls
- Weekly progress updates
- Deliverable target dates
- Other communication mediums as deemed necessary
